

BHR

HAIR TRANSPLANT

ACADEMY

A 3-day TRAINING COURSE
fully designed and directed by
Dr. Christian Bisanga,
world renowned
Hair Transplant Surgeon.

1-3 June 2023, Athens

Welcome to BHR Hair Transplant Academy Training Course in Athens

Dr. Bisanga has been practicing in the field of hair transplantation for more than 20 years. He is the Former President of FUE Europe Society, and he has trained many hair transplant surgeons around the globe.

In June 2023 Dr. Bisanga, for the first time, will organize a course fully designed and directed by him as well as the hair transplant surgeons who have partnered with him in BHR clinics.

The entire curriculum of the course is designed based on doctors' requests about what they need to know according to their level of experience. Offering at the same time the opportunity to learn from Dr Bisanga's valuable lifelong experience.

A 3-day Training Course

The course will last three days, covering all topics of FUE procedure that a doctor needs to know in order to perform surgery successfully and safely.

Thursday, June 1st, 2023

The first day involves exclusively lectures from early morning until the afternoon at the conference hall of the anatomy lab. The lecture program will include all topics of FUE surgery. The flow of the lectures will follow the sequence of actions taken on a typical surgery day. The lectures will cover patient's consultation, design of the surgery, documentation, local anaesthesia, punching, graft collection, graft preparation and selection, recipient area design and sites and finally graft placement. Additionally there will be lectures on instrumentation for punching, graft harvesting, site preparation and placement. Also, marketing and social media lecture for new clinics and lecture for post-op care. The day will end with live patients consultations and surgery design with Dr.Bisanga.

Friday, June 2nd, 2023

The second day is devoted on training on fresh frozen cephalic cadavers. The training program includes a session of local anaesthesia, several sessions of graft harvesting with FUE method and site preparation. There will be a limited number of trainees at each station in order to achieve the maximum time of involvement and hands-on experience.

Saturday, June 3rd, 2023

The third and last day constitutes of live surgeries at BHR Clinic. The aim of this day is the trainees to gain experience and knowledge under real time surgery conditions. The surgeries will be guided by Dr.Bisanga and faculty members of the course. As in Day 2 there will be a

limited number of doctors per surgery room, in order to have enough time for each doctor to get involved in the surgery during the whole day.
